D|AIR® STREET

Safety is the key element for the Multistrada 1200 S D|air®. In fact, it's the only bike in the world to be equipped with the innovative D|air® system, a protection device designed to be activated, if needed, in just 45 milliseconds. Thanks to sophisticated sensors and electronics integrated in the vehicle, the motorcycle is able to detect danger and activate the inflation system of the airbags incorporated in the special Ducati D|air® jacket made by Dainese, thus ensuring superior protection of both the rider and the passenger.

URBAN

Essential and modern apparel dedicated to urban bikers who won't compromise on safety and style.
